Nurture Through Nature Keeps on Growing Veg Summer 2021

Nurture through Nature volunteers grow veg and we donate it to local food banks. Simple and effective.

We’ve been working with Fareshare this summer.

We have been growing produce for Fareshare Brighton to distribute. They collect the veg in their refrigerated e-bike and deliver it to food banks. Veg without fumes.

Samantha showed our volunteers how to sharpen tools

Our volunteers know their onions.

We worked in small groups to be Covid safe, distant but friendly.

It’s also been fun and social. Veg and roses too.

There’s been a lot of sun and plenty of rain so it’s been a good growing season.

Food bank use has been particularly high during Covid so our produce is really needed and so are you, our volunteers. Without you, we couldn’t grow the veg so we’d like to say a big thank you to all of our volunteers who helped this summer.

Nurture Through Nature

Thanks to Fareshare and all our funders, supporters and food banks. A special thank you to Community Works and Community Base who helped us recruit volunteers in tricky times. We depend on you all.
